

<b>Paper Title (Concept Proposal/Baseline Paper)</b>
Predictors of pregnancy loss and ectopic pregnancy in PPCOSII and AMIGOS
Accuracy of participant assessment of treatment arm assignment in PPCOS II
Maternal Vitamin D Status and Outcomes in Pregnancy
Treatment strategies for WHO group II anovulation – An Individual Participant Data Meta-analysis
Non-mandatory components of RMN trials: participation rates and predictors of participation
Rate of rise of HCG and pregnancy outcomes in PPCOS II and AMIGOS
Chlamydia titers and pregnancy
Cotinine, BPAs and pregnancy outcomes
Ectopic Pregnancies in RMN Trials
Global Testing of Previous Algorithms to predict response of women with PCOS
AMH in community vs infertility sample
Endometrial morphology, uterine fibroids and pregnancy outcome
Correlation Between Local and Central Hormone Determinations
Distribution of Androgenicity and Glucose Intolerance Among Patients with PCOS and Unexplained Infertility
Racial and Ethnic disparities in outcome and adherence to study protocol after ovulation induction or intrauterine insemination
Are predictors of successful pregnancy similar across infertility populations?
Assessing Tubal Patency in Infertility: a Comparison of Hysterosalpingogram and Saline Infusion Sonography
Correlation of clinical and biochemical measures of androgenicity in the PPCOS II trial
Metabolomics and Polycystic Ovarian Syndrome
Sleep habits in women with PCOS versus those with unexplained infertility
TSH and Pregnancy Outcomes in PPCOS II and AMIGOS
Quality of Life and Perceived Stress in Patients with Infertility Undergoing Treatment
Sexual Function Status in Women with PCOS or with Unexplained Infertility
Recruitment of participants in a multicenter trial: Pregnancy in Polycystic Ovary Syndrome II and AMIGOS
PPCOS II AMH Ancillary Paper
PPCOS II Baseline Characteristics
Racial and Ethnic disparities in polycystic ovarian syndrome
Low AMH and Risk of Pre-Eclampsia
