## WEBVTT

- $1\ 00:00:01.850 --> 00:00:05.749$  In the last 50 years nearly 40 million immigrants have migrated
- $2\ 00:00:05.949 \longrightarrow 00:00:06.470$  to the US.
- 3 00:00:07.580 --> 00:00:11.089 By 2055, researchers predict that over half the American
- $4\ 00:00:11.289 \longrightarrow 00:00:13.760$  population will hail from non-American descent.
- $5~00:00:14.900 \dashrightarrow 00:00:17.540$  And every single individual no matter where they come from
- $6\ 00:00:17.740 \longrightarrow 00:00:20.450$  or where they go, has the right to belong here.
- $7\ 00:00:21.680 --> 00:00:24.079$  Over the last decade, leaders in the medical
- $8\ 00:00:24.279$  --> 00:00:27.619 and public health fields have pushed for the integration of cultural competence into
- $9\ 00:00:27.819 \longrightarrow 00:00:28.730$  standard curriculums.
- $10\ 00:00:29.210$  --> 00:00:32.929 They understand that competent care is a crucial step to reduce health inequities
- $11\ 00:00:33.129 \longrightarrow 00:00:33.890$  in our communities.
- $12\ 00:00:34.580$  --> 00:00:38.330 However, teaching cultural competence in a classroom is not enough.
- $13\ 00:00:38.900$  --> 00:00:42.770 Studies show that professionals struggle to apply the competence in context
- $14\ 00:00:43.130 \longrightarrow 00:00:44.630$  with their patients and clients.
- $15\ 00:00:44.840$  --> 00:00:47.568 This weakness leads to members of our communities feeling unwelcome.
- 16 00:00:48.650 --> 00:00:51.440 Patients then have lowered adherence to treatment plants,
- $17\ 00:00:51.640 --> 00:00:52.910$  increasing health care costs
- $18\ 00{:}00{:}53.110 \dashrightarrow 00{:}00{:}55.819$  and hospital readmissions, bringing them back into contact
- $19\ 00:00:56.019 \longrightarrow 00:00:56.780$  with incompetent care.
- 20 00:00:57.740 --> 00:00:59.325 So how do we stop this cycle?
- $21\ 00:01:00.590 \dashrightarrow 00:01:03.599$  We teach our future generations to use intersectionality
- $22\ 00:01:03.799 --> 00:01:06.710$  and the socioeconomic model to create sustainable solutions.

 $23\ 00:01:07.280$  --> 00:01:10.670 We teach ourselves to look at our neighbors in a way that respects their identities

 $24\ 00{:}01{:}10.870 --> 00{:}01{:}11.540$  and narratives.

 $25\ 00{:}01{:}12.380 \dashrightarrow 00{:}01{:}15.440$  We must better equip ourselves to think like the communities we serve.

 $26~00{:}01{:}16.070 \dashrightarrow 00{:}01{:}19.520$  Because together we represent the diverse microcosms

 $27\ 00{:}01{:}19.720 \dashrightarrow 00{:}01{:}23.119$  of our world. Cultural competence should be a standard in the work

 $28\ 00:01:23.319 --> 00:01:25.700$  we do. Our communities need it

 $29\ 00:01:26.600$  --> 00:01:29.660 because no matter where you're from when you here,

 $30\ 00:01:29.860 \longrightarrow 00:01:30.680$  you belong.
